S9000
Photo Printer

The Professional Photo Lab for Your Desktop.

- Large photo prints up to 13" x 19"
- 3,072 nozzles for exceptional speed and quality
- Borderless 4" x 6" photos in approx. 37 seconds
- 6 individual ink tanks to reduce waste
- Photos lightfast for approx. 25 years*

The Ultimate Wide-Format Photo Printer.

It's the wide-format photo printer you've been waiting for—precision equipment for your desktop that enables you to print truly remarkable photos that rival those from a professional lab, from borderless 4" x 6" up to bordered 13" x 19". All at incredible speeds and with the ability to retain their brilliance and vibrancy for approximately 25 years when printed on Canon Photo Paper Pro. The S9000 Photo Printer from Canon features out-of-the-box performance for professional photographers and photo enthusiasts that makes photo printing incredibly fast, easy, and affordable.

High-Speed and High-Quality.

The S9000 Photo Printer features a sophisticated printhead with 3,072 nozzles for faster printing and much greater detail. *Advanced* MicroFine Droplet Technology™ combines cutting-edge achievements in ink-droplet size, accurate ink application, consistent droplet quality and ink composition. The result is spectacular 2400 x 1200 dpi print resolution, 49 gradation levels, reduced graininess and breathtaking detail and color reproduction. Plus, Canon Borderless Printing technology gives you the ability to print 4" x 6" and 8.5" x 11" photos all the way to the edge of the paper, just like a photo lab.

Intelligent Ink Management.

The S9000 Photo Printer features the Canon Think Tank System™ Six large, individual ink tanks, one for each color, make it easy to replace just the color that runs out, rather than the entire cartridge. Plus, a unique optical low-ink sensor warns you with an on-screen message when an ink tank is low, giving you plenty of time to replace the tank before it runs out.
